Humanising Healthcare

Through patient participation in Education

Talk to me
and not to
my carer

Let me know
what is
happening

Talk to me
while you
wash me

Smile and
be cheerful

What are the 'Humanising elements of healthcare?'

Listen to me so
that you can try
to understand
what it's like

Respect
diversity and
difference

Give me you full
attention while
you are with me

Be kind,
compassionate
and caring

Current Work

1. Talk about our experiences
2. Portfolio reading
3. Plan future work for the group
4. Consultation groups
5. Research
6. Assess student presentations
7. Attend a variety of meetings
8. Student Interviews

Future Work

1. To expand the range of expertise within the group
2. To provide input to a wider range of courses/units across the school
3. To promote the work locally, regionally and nationally
4. To develop the webpage
5. To facilitate the development of focus groups
